To the Farmers.

A few words to our intelligent read ers among the Farmers in this neighberhood, in relation to the present state of things among us our mutual interests and responsibilities, we think not will be thrown away. In times of general prosperity, when trade is brisk and our manufacturing establishments are in a flourishing condition, the farmer thrives and wealth flows into his coffers through the hands of the operatives .-In a time of distreess like the present this consideration should induce the farmer willingly to bear a share of the burden. But there is an inducement besides this, and a course which the farmer might pursue, which we are satisfied would in the end turn out immense-ly to his benefit. The city at the present time is supporting hundreds of men and lads, able and willing to work at any honest employment, while the present distress continues, almost for a piece of bread. Now we believe that the farmers in our immediate neighborhood, greatly to their own advantage in the end, might relieve the city of at least five hundred of the unemployed, and by setting them to work in various ways not only prevent much suffering and distress, but with actual and more than equal benefit to themselves. We need not point out the various kinds of labor which might be advantageously done on the farm. Every jutelligent farmer, we know, might profitably employ two or three extra hands during the coming winter. Provisions are abundant and wages will only be expected to be nominal.

We have, also, at present in the city hundreds of unemployed females, tidy active, and willing to work, who would be glad to find comfortable homes on almost any honest terms. Will not the humane and kind-hearted farmer's wife consider this matter, and make the case of her sisters in distress her own case ? We know she will, remembering that charity never fails to bring down the blessing of Henven, and that those who cast their bread upon the waters will be sare to find it again, though after many days.-Fall River News.

Difference in Cows.

Cows, under certain constitutional circumstances, are naturally disposed to convert their food into fat, so much so that there is great difficulty in keeping some classes in a breeding state, more especially improved Short Horns, De vons and Herefords. Turn a cow of this description into rich gross, and she is soon useless for anything but the simulbles. The quality of the milk she gives may be fine, but the quantity almost cothing. We had a . Devon, the property of a noble. Duke, which carded off the first prize of her class at one of the Royal Agricultural Society's meetings, not giving more than one գտու ու տամեն

one at a milking.

On the other hand, there is a class of cows naturally inclined to turn all their food into the pail. Turn a cow of this kind along with the one above, and she will ruther get poorer every day, if the milk is taken from her, while her plump and sleek rival is gaining weight. The former will consume greatly more gross and water than the latter, returning for it in proportion a still greater quantity of milk, but inferior in quality. In town dairies, when fed on sour grains, distillers' wash, &c., the quantity sometimes vielded is almost incredible.-When such is the case, however, life is generally short, especially if cows are in a low state at calving. Hence the reason why dairymen purchase near colves of this class in good condition.—

The above two classes may be called extremes, between which there is a mean, and if this latter class of cows, if turned into a rich pasture along with the others, would keep themselves in good condition, and give a medium quantity of milk, the quality depending upon the richness of the food.-Mark Lanc Express.

To Make Cream Cheese.

The following are two receipts Take a quart of cream.or, if not desired very rich add thereto one pint of new milk ; warm it with hot water till it is shout the heat of milk from the cow add a small quantity of rennet, (a ta blespoonful is sufficient,) let it stand till thick, then break it slightly with a spoon, and place it in the frame in which you have previously put a fine canvass cloth; press it slightly with a weight; let it stand a few bours, then put a finer cloth in the frame; a little powdered salt may be put over the cloth. It will be fit for use in a day or

Another Method .- If cream is scarce so that a sufficient quantity cannot be had at once, take a fine convass bug, and pour as much cream as you may imppen to have into it, adding addifrom its becoming naturally sour, thin part will drain through the canvass, and the remainder will prove an excellent cheese. If one quart of cream can be had at once, and poured into a line canvas bag, it will make a nice sized cheese, and of course equally good as those made by several small quanti ties added at convenient intervals. Th cheeses made in this way are not fit for use so soon as those made with remet -Gardener's Chroniele

MEWPORT DAILY NEWS

THURSDAY MORNING, NOV. 19, 1857

Newport is an ancient city, and essentially aristocratic in her memories of the past-her position in the present, and her tendencies for the future; we are inclined to review the times that are gone, and to cling to the tattered skirt of dessented greatness, instead of recovering ourselves for present effort and appreciating the ability, industry, and talent that still remains in our midst. Our old men gather around the corners in the sun, and talk of the time when Newport was the commercial metropolis of the country, of her Touros Chaunings, Gibbs and Malbones, they refer to the brilliant period of Hunter, Hazard and Robbins, and then groan over the depreciation in talent and the dearth of business that now exists without making one manly, vigorous effort to galvanize themselves with new life, or to awake and direct a spirit of enterprise amongst us, that would change our entire condition and prospects as a community,

After all, it requires but a very little lump of the right kind of leaven to pervade the whole mass, and we are inclined to believe that there is much ability and latent energy in the bosoms of our citizens, that only requires a good start, and fair opportunities for development to ensure its efforts and consequent success. We are conservators of old cvils and prejudices, because they have existed for generations until they are a torpid, paralyzing legacy bequeathed from sire to son, and even a casual reference to these couched in the most gentle and courteous terms is received with loud mouthed abuse or ill-natured snarling. The Daily News is a little paper, and not so interesting in many respects as we should wish, but a little sharp, well-pointed spur sometimes improves the pace of a very large chansy, lazy steed, and it is our intention to jamthe rowels in up to the hill, in all matters when we conscientiously believe ourselves to he right, and to keep it jammed in until we see some steps taken in the way of improvement and reform.

The winter season is nearly upon us, when everybody has ample leisure for reading, and, the subsequent digestion of what, they have read,-and we have written this as a kind of introduction to a series of editorials we intend publishing, relating to the manifold abuses and evils, moral, political, social and mercantile, which are sticking like rotten fungi, to the heart of Newport, and are never scraped off, because they have been there so many years. If we are unjust or incorrect in any of our opinions or statements, we should be pleased to receive and publish any courteous manly replies to our articles, and should not hesitate to give

contemptible spirit of cliqueism, which has so long debilitated and weakened the true interests of Newport, and intend to attack it presistently and bravely. The views which we express on any subject are our own, for we pin our faith to no man's coat-tail, and we hope our readers will accord us, at least the mind of trying to be just and correct, and laboring irrespective of prejudice to advance the best interests of Newport, to promote which we extend our hand warmly and honestly to all her sons, that they may join us in a sort of crusade against laziness prejudice, old fogyism, scandal, eliqvism, bigstry, hypocracy, money without brains, selfishness, ignorance, and "a variety of other articles too numerous to men-

CLEANING BROADWAY.—It is said that the committee having in charge the cleaning of Broadway, have made arrangements with Mr. Smith, the contractor, whose new loading machine is ready and will be on the street next week. The contractor propos-es to keep a force of men constantly at work to clean the sidewalks and crossings. The storekeepers on Broadway may do much to aid in the work of keeping the street clean ay having their stores swept out at night instead of in the morning. The sweepings will then be taken up by Mr. Smith's ma-chine before daylight, and will not be left to be scattered about the street during the day. ept out at night. The sweepings For several nights this week Broadway has been cleaned by hors and brooms, old fa-bion, the fogs and rains making to much mud for the profitable use of the machine.

Much, very much, has been said and written on the subject of advertising. Advertising is a study, a trade a business; in fact, one of the useful arts. To carry it on judiciously requires talent, if not genus, of a high order. One thing is getting to be pretty clearly understood, viz: notwithstanding the large circulation of some metropolihas brought all news through the world to each principal city in the country at the same hour, the local papers in each large city are consulted for the earliest intelligence from a distance, and they give it long be-fore the mail, rail or express can arrive with papers from other localities. Notwithstanding there are papers with a large cheula-tion that claim that they are only needed as a medium for advertising, for various reasons here releared to they lill but a fractional space in the eyes of thousands or millions who are or who may become, puchasers and costomers.—Boston Post.

RIDING IN AN UMAIBUS.—As we were going down town in an omnibus, opposite sat a young and beautiful lady. We could not help admiring such beauty, until we saw gray hair mixed with the black, which seemed to break the charm; the remedy for those gray hairs would be the Alpine Hair Balm, which is warranted in a short time to turn gray hair to its original color, be it black, brown or auburn.

LOCAL NEWS.

ta The present times, although financially gloomy, are like to prove the golden age of housewives. Mistresses of families may reasonably expect to enjoy, during the coming winter, the rightful sway of their own kitchens-a privilege long denied. No lady who reads our paper requires to be remind ed of the deep gulf of despondency in which, for the last half-dozen years she has continually dwelt, by reason of the flagrant shortcomings and long-goings of her "help," "Help!"—the very word is grim. and horrible with sarcastic mockery. "Help" signifles an ardaeious usurpation of pot and pau, coals and tea-cannister, and the exaction of a weekly tax of two dollars, more or less, by some inflexible Bridget, or Gretchen, or Dinah! We wish only to suggest to our fair friends that a temporary cessation of their troubles has arrived. They are assured that something, on which the title "help" may be with more propriety bestowed, will beseech at their doors for employment at very reduced wages before the snows whitens the Earth. A delightful spirit of humility promises ere long to adorn and dignify the occupations of washing and ironing, of cooking, and of scouring. A highly correct and gratifying feeling of thankfulness is about to attend the use of the broom and the duster by day, and the possession of an attic couch by night. Perhaps by vigorous watchfulness our housekeepers may render their triumph lasting. Women of Newport, an opportunity for emancipation from Kitchen tyranny awaits you! Improve it or suffer ingloriously and forever!

· The Charitable Concert of the " Musical Institute," which has been announce d for Friday Evening, deserves to receive the cordial and general patronage of every lover of music and friend of the poor. Certainly no more agreeable or effectual method could have been adopted for the relief of the destitute. The Association, whose services are self-enlisted in this praiseworthy cause, are well known and well respected in our community. Even when appearing before the public with a view to personal gain, this society has always met with prompt and flattering notice. Now that it is engaged in the alleviation of poverty and distress, its efforts should be crowned, if possible, with still brighter success. We demand for the concert of Friday evening an overflowing

Honorable William R. Watson State Auditor is in town, stopping at the Aquidneck House. These are hard times but the StateAuditor's salary should be increased.

> A correspondent of the National Intelligencer writes from London as follows:-

A novel and singular feature in the commercial affairs of England was exhibited last week, in the return of British manufactures to this country from the United States, fifty cases having been received by the ship City of Baltimore, and several tons more are expected next week at Liverpool from New York. Here is the first decided and definite check to trade in the return of goods from a consuming to a producing county; and it proves one of two things, either that the importation had exceeded the demand for a fair average consumption, or that the consumption had, through pressure of some laid or other districted. kind or other, diminished.

GEORGIA—Governor Brown of Georgia, in his inaugural, devotes himself mainly to in his inaugural, devotes himself mainly to State affairs, the railroads, education, banks &c.—He declares his purpose to order proceedings for the forfeiture of the charter of every bank that shall suspend specie payments, decraing the law on that subject imperative. Concerning federal relations, he says little more than to repeat the annual warning, that Georgia knows her constitutional rights, and will not permit them to be trampled on by any portion of the universe. SUNDAY EVENING CONCERT.—Last Sunday evening a concert was given at the Academy of Music, at which Madame La Vicuntemps, and other noted proorange, functoring and with fine effect, selections from the oratorios of the "Messiah," "Creation," "Enjah," and others. The price was reduced to fifty cents, so as to give all a chance to hear the best sacred music by some of the hest vocal talent of the day. The concert is to be repeated next Sunday evening.—N. Y. Uncle Sam having omitted to construct of ault in the new custom-house in Portland, Me., sent on a large iron safe from Balti-more to supply the deficiency. After it had been placed in the custom-house the workmen locked the door and were wholly unable to unlock it. The maker of the safe had to come on to unlock it, which he did by altering the key. Had the difficulty oc-curred in locking it the first time, when the man was inside, it must have proved fatal to him, as he would have sufficiented before it could have been opened,—Prov. Post.

DIETETIC SALERAIUS

DIETETIC SALERAIUS

Is smong the most important improvement of the present day. Every family through out this land should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally Common saleratus has the elements of caustic alkahi, and readily acts on the coating of the stomach, thus deranging the digestrie presans and paving the way of Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile diseases, which in former years, were successfully treated, even without medical aid. But here is an article to be relief on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely

the result of many experiments, is entirely different from everything heretofore in use.— The perfection reached in pufflying it, makes it as harmless to the stomach as flour itself,

it as harmless to the stomach as flour itself, while in point of nicety it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most dwspeptic stomach. Every lady that tries it will use no other.

From the Providence Daily Tribune.

Rose Compound for the hair, is unequalled for cleaning, the human head, giving the hair a rich, silky and lustrous appearance; rendering it soft, preventing baldness, restoring the hair that has fallen off, effectually cuting scurf, and in fact, giving to the whole, head those natural heaties which are the delight of the haires, the pleasure of youth, and the joy of old age. Sole praprietor, John & Hazard, No. 186 Broad street, Providence.

4 CIAUTION TO LADIES.—A lady residing in Stanford, Conn., was very severely burned on Friday evening last. She had been applying to her hair a mixture of castor oil and alcohol, and approaching too near a lightied lamp her head become enveloped in a blaze, and the flame was not extinguished until the lady was so serverly burned that she is in a critical condition.—Woonsecket Patriot, Oct. 24th.

Don Juan's Rose Compound is the only safe, elegant and truly efficacious Hair Preparation sold, and is winning "golden opinions from all classes of people." (See pamphlet.) It is warranted to contain no alcohol, grease, sugar of lend or les vipluur; and will restore the hair in every instance where restoration is a healthy, luxuriont condition. In bottles at 25 cents, 60 cents and 75 cents. Who, then, will use inflammable, greasy and poisonous compounds, when the real desideratum can be procured at so small expense?

SPANISH GOLDEN MIXTURE.

SPANISH GOLDEN MINTURE.
FOR FEMALES.

THIS elegant vegetable compound has long been used by the Spanish ladies, for regulating the derangements of the female system, and for improving the general health and heautifying the complexion. It is a warming, stimulating and tonic cordial; enriching and purifying the blood, quickening the circulation, imparting color to the lips and cheeks, brilliancy to the eyes, and a clearness and freshness to the complexion not attainable by any other means,

ILP As a Pennale Medicine it has no equal. It will remove female obstructions when all other remedies have failed, and a few doses taken for one week before the monthly period will prevent allostructions from any cause whaterer. This may seem incredible, but try that it all it any case the price will be refunded. Sent to any part of the country. Price §3.00 per bottle.

W. F. SHAW.
The First Premium and ONLY GOLD MR.
DAL ever awarded on GAS STOVES by the
Massachusetts Charitable Mechanic Association, was awarded to W. F. SHAW, who has also received a medal from the American In-stitute, N. Y.

These are the only desirable inventions for Cooking or heating by gas ever officed to the public, and are the results of upwards of seven cars' experiments and experience of the inyentor and patentee.

W. F. Shaw's Patent Gas Nurse Lump, or
Gas Heater, for boiling small quantities of

water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manuactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

MEDICINES.

THE GREATEST WONDER OF THE

THE GREATEST WONDER OF THE AUE.

A REMEDY which CURES IN FIVE AUE.

A MINUTES.—M. LERGUX'S French Cholera Cognae Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The manerous patients who have tried h according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remody was introduced in the annies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over '75 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold modal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our annies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon cating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most neclebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
